

NOTE: because these posts went from one page to another, some older posts may not be accurate

Sat, July 07, 2007:

Hey all! Zack here. This is when the news page is made! But I also got some good news! We have just went to our sound and music provider and we just got some new music! Check out some of the newer movies to hear it! I also want to say that I can't wait for the FLOT and the FISTA to come! Maybe I'll post some sneak previews! Well, that's all for now!

Sun, July 08, 2007:

Hello ya all. I just want to say that most likely the flot will come out before the FISTA. We are just getting ready to start filming FLOT! This is so exciting!

Mon, July 09, 2007:

Great news! The FISTA script is DONE! We should start filming just after FLOT is out!

Tues, July 10, 2007:

You will never guess what movie we are also working on! We are not going to tell you, you will be surprised! [Ok, here is a hint: It is a part 2 to a other movie!] But this won't be for a long time.

Wed, July 18, 2007:

The Fire part 2 is getting closer!

Wed, July 25, 2007:

Sorry I haven't been posting. Well, I now have some VERY bad news, we can't seem to get organized to start any of our movies! When one actor is ready, the other one can't! So sorry to say this, but our movies won't be out for a pretty long time. I wish I could hire a organizer for Rockstudios! [Maybe if you live near us you could join!]

Sat, Aug, 04, 2007:

Sorry I haven't been posting in a long time. Well, I got some bad news, and worse news, and some good news. The bad news is that it looks like all of our "Coming soon" Movies are no longer "Coming soon." The WORSE news is that our computer is not able to handle the movies we are trying to make, [That's why every movie over 4 minutes most likely has a part 1, part 2, part 3, and so on. the bit of good news, I played golf well today. That's all for now!

Tues, Aug, 07, 2007:

I really want some stuff for Rockstudios, here is a list: I want, 2 cameras for new cam angles, FXhome for cool effects, a computer chip that way we can make longer movies, Google adsence, and Google adwords. That's all for now! Remember your welcome to donate some stuff! [Today I removed the news page and replaced it with this page.]

Wed, Aug 15, 2007:

I haven't been posting in a while, Because I was working on all the great, new movies! I hope you like them, oh, and did you know we are accepting ideas from people like you? It's true! E-mail me an idea for a movie and if I use it, you will be in the credits!

Fri, Aug, 17, 2007:

I did it yesterday, but did you know I made it that way the pop up for the survey only pops up once? It uses cool javascript to leave a SMALL cookie on the computer that way it knows if you have been here or not! It's really cool.

Sat, Aug 18, 2007:

I have NO idea why, but for some reason when ever we have a script, the movie just never gets made! All of the movies so far have no script, and all the scripts have no movie! [Maybe it's because I write the scripts too hard to make!]

Sun, Aug 19, 2007:

I overall just updated the website today. You know, I wish I could get serious about movie making. The only reason I can't is because the movies aren't good enough to sell yet! On well. Some day we will be at the top of the bar Oh, and did you know that we now have full access to the ulster library?! Is that cool or what!?

Fri, Aug 31, 2007:

Yes, I know I haven't been posting in a long time, but there has not been much to say. This is the day that this posting page was made, and now the news page has just latest news. oh, And I also want to say that we now have enough money for a GREEN SCREEN! and we are soon going to make an appointment to check out a REAL movie studio!!! And so far we have \$100 To go to the software! AND we have recently ordered a movie catalog, with movie equipment in it! Things are looking up!

Mon, sep 3, 2007:

I really can't wait for that catalog from markertek to come! I hope it has a good, yet cheep green screen! As for the software, Well, I'm having problems getting it. I can't find any good ways to earn money for it! Oh, and the reason I have not been posting for 3 days is because I have been camping! Check out the movie I made up in the mountains maybe tomorrow! [It is uploading as I speak, So maybe later today it will be on!] its at 91%.....

Wed, Sep 5, 2007:

I Uploaded the movie "adventure in the woods" 2 days ago, Just so you know. Anyway, I am very surprised that that catalog didn't come yet! It better come tomorrow, Or I'll never buy from markertek! But I Have some SUPER bad news! We MAY not be getting the software for about a year! [Now that I'm doing school, there is no time for work!] I just got done a little while ago with school. [oh, did I ever tell you I was home schooled? Yep, It's pretty cool, but not much different from other schools, I still work from a book.] Oh, and do you know when we will go up one more bar? We will go up once rockstudios becomes a REAL business! So far we as kids did all we can do without breaking some stupid age laws. Oh, well, that's all for now!

Thu, Sep 6, 2007:

Boy is it hard to update the site with school and all! At this rate, I may NEVER get the software! [Well, sometime I'll get it.] I really wish There was some way to get some money! I get allowance, but it ALL goes to this website!!! There isn't much other stuff to say. Oh, Did you know we are getting a new actor? tori has signed up, now all she has to do is act in 2 moves, and she will be official!!! The catalog STILL didn't come! It's been only a few days, but it's been felling like a long time!!!

Sun, Sep 9, 2007:

Hi. Not much to say other then I got about 2 or 3 new music tracks from out sound and music provider. That Markertek catalog better come tomorrow! Oh, did you know I do runescape? My name is rockstudios. If you do runescape, maybe we could play together! And The news about the software and green screen: It looks like it won't come for a while. [But I now do have money for the green screen!] I have ABOUT \$125 to the software. The bad news is that sence I have school, I can't work, and so I won't be getting any money! Oh well.

Tues, Sep 11, 2007:

It's past 9:00 at night and I'm suppose to be off the computer, so if I leave suddenly, that's why. Anyway, not much happened at all to day. I wanted to make a movie, but George didn't. so I asked my sisters, [Rose and Ammanda] and they didn't want to. So, I left to play runescape. That's almost all I did today. Other then the fact my grandma came over and made lemon cakes. Too bad the cake almost made my throw up! [Sorry grandma] Oh, and that catalog STILL didn't come. I guess I'm just impatient. [did you notice I can spell runescape? I used to spell it runescape for some reason] OH! I ALMOST FORGOT! Pack 103 wants me to make a slide show for them! I can't wait. [You won't be able to see the movie, pack 103 wants to keep it within the pack, sorry]

Wed, Sep 12, 2007:

The catalog STILL didn't come! I don't know if I'm just really impatient, or markertek is really slow! Anyway, not much happened today. I wish there was some way for me to earn money for the FXhome software. I wish could just get effects lab lite, but It can't do green screening. [I don't think it can, if it can, I think I may get it!] oh, and we really need more actors. If you would like to join, Please go to the actors page. That's all for now!

Thurs, Sep 13, 2007:

Ok, now I'm a bit mad. The catalog from markertek still didn't come. Anyway, You may have noticed that I post almost every day now, right? Well, that's because I'm so bored! There is nothing to do! No one wants to make movies, and most of the actors are not as excited about making movies anymore. Now, Joe HATES making movies! I think I'm going to take him off the actors page. As for me, I still love making' movies! I wish I could become a professional movie producer some day. Oh, did you know homestead got updated? what do you see that I NEVER had before? It is on the home page, and it is....Rounded corners on rectangles!

Fri, Sep 14, 2007:

I got done with the pack 103 slide show, but now the leader tells me he wants MORE pictures in it! So far there is about 86 pictures, and it took me all day to sort out! [I started with 600 pictures, but lowered it to 86] I know how to add more pictures, but it requires more time, and work! Oh well. it will look cool when I'm done! Right now my eyes hurt from looking at the computer screen all day long, so I will try to get back to you tomorrow.

Sat, Sep 15, 2007:

I give up on markertek. It should have came a long time ago! I guess it will never come. Oh well, I can just see their catalog online, but I don't think I want to buy from them if they won't even give me a catalog they promised! I finished Pack103'S slide show, now I'm just waiting for the leader's OK. I hope they like it, because I can't fix it! My computer normally can't go over 5:00, But this movie is pushing over 7:00!!!! Windows movie maker keeps crashing, so it is VERY frustrating! but it's done, and if Pack103 hates it, well so be it.

Mon, Sep 17, 2007:

The leader of pack 103 likes the slide show! I'm going to show it to the pack TODAY! I'm a little scared, because I don't want this to mess up! And guess what I just found out.... The slide show is to get NEW kids in pack 103!!! If I knew THAT, I would have put in more smiling faces! And Not only that but I also need to show a movie about a kid who got 3 bulls-eyes in a row, during the meeting! It's fun and all making movies for others, but If I mess it up, It could get ugly. Well, the good news is that lots of people like my movies! Tori's, [The new actor's] mom liked my movies, she "...just couldn't get over.." the fact that I make movies! And LOTS of people in pack 103 has been saying that they are cool!

Wed, Sep 19, 2007:

Sorry I took so long to respond. The pack meeting went great! Too bad the speakers made so much fuzzing. Maybe sometime I can hook my computer up to the pack's speakers. Oh, And I Installed derby master! It has nothing to do with movies, but now I can keep track of cars in the pinewood derby! [That race the cub scouts do, they make a car and race it] I also have some bad news. This is VERY bad news for all the actors out there the bad news is.....I may be moving!!! I can hear my parents talking about someone they know who is looking for a house like ours! I hope I heard wrong, because I don't want to move!!!!!!

Fri, Sep 21, 2007:

Yesterday I got a new software! It's a script software, now I can write better scripts! it's free, But I want to get the special upgrade. Oh, and I found out where markertek is! The funny thing is, that on the way home from work, [where I'm trying to earn money for FXhome] It's right there! If my dad didn't point it out, I would never know where markertek was! And sence they are rather close, you would think the catalog would come sooner! Oh, and One more thing, I ordered some business cards!

Sat, Sep 22, 2007:

I can't believe it! My parents won't even give me a little money for FXhome! I'm a kid trying to fulfill my dreams, and they just need to shadder them all! What's SO bad about being a movie maker?! Eather we are so poor that they can't afford to pay not even half, or my parents hate me. I can't tell which it is, maybe a mix of both. And I guess they are just trying to do their job..Ruin my life.

Sun, Sep 22, 2007:

Not much to say today. Other then the fact that I ordered some business cards, the markertek catalog still did not come, and that I meet a other kid who likes movie making too, I had a very boring day. I wish I had FXhome NOW! Did you know that I thought it was \$1000 [I have no idea why] Then I was on the demo, and it said \$500! It's so hard saving \$500! [for me at least, I don't have a job!] Oh, and George may be able to join runescape! [There is about a 30% chance of him joining]

Thurs, Sep 27, 2007:

Sorry I have not been posting in a long time. But anyway, guess what! THE MARKERTEK CATALOG CAME!!!!!! I gave up on it, and it came! It's not what I expected, but I guess I just got my hopes too high. Fedex JUST delivered it about 10 seconds ago! I need to look through it, so I'm going to need to go. I'll let you know tomorrow if it has what I want! Guess what I found! FXhome vision lab studios..ON EBAY FOR \$350!!! My dad just asked the seller some questions about billing and stuff, and I may get it! But it sounds fishy, why would he sell a new, never opened, software for much less?

Mon, October 1, 2007:

I can't wait for Halloween! Oh, and I got great news! you know how I posted about the FXhome on Ebay? MY DAD JUST ORDERED IT!!! it should come soon! AND I got some business cards today from vista print! I can't wait for it to come in the mail! Now I just need a green screen! IM SOOO HAPPY!

Tues, October 2, 2007:

Good news: I'm getting FXhome vision lab studio. Bad news: We are paying by check, so we need to wait for the check to be sent, then we need to wait for the product to be sent! I HAVE NO PATIENCE! I can't wait any longer! AND I need to wait to save up for a green screen! Oh, and I may be ordering more stuff [like sticky notes and stamps] from vista print!

Fri, October 5, 2007:

NOTE TO ALL: I want to make a new page, but can't decide what, So I will let YOU vote! Go to the "Please Vote" Page, and cast your vote! Hurry, Voting ends at the end of October! And in other news, Well, There is none.

Thurs, October 11, 2007:

I haven't been posting in a long time for many reasons. One reason is that I was a vacation, [See movie soon!] And an other reason was that there is nothing to talk about. I am very bored.

Mon, October 15, 2007:

There is nothing really to talk about. Well, I guess there is some stuff, like the new movie page, and two new movies. [Sneek peek at the fire, and Playin' with clay] I wish I could automatically update this post page with html or java script. [Just like how the new movie page is] It takes a long time to do it manually. Oh, and I am also thinking about having a Vlog! [Just like a blog, only with video]

Tues, October 16, 2007:

FXhome should come ANY day now! I hope it's real, we didn't buy it from the real FXhome company, we got it on Ebay. Oh, and I Have about \$100 saved up for the green screen! [The best and cheapest one I could find was around \$170] I am selling wreaths as a fundraiser too! The wreath costs around \$30, and I only get \$5.50 of it! If you even want to sell wreaths as a fundraiser, DON'T buy from "Wreaths of Maine" They pay horrible! Well, at least it's some money.

Wed, October 17, 2007:

I Wish FXhome could come sooner! Each time I think of a movie, I say "Oh, Never mind, I need the software" Did you know that I went on vacation? I went to a huge water park, I put my camera in a bag, and took it in! It was so cool, too bad my computer won't load it. So far, I earned \$11.00 from selling wreaths.

Thurs, October 18, 2007:

FXhome SHOULD come tomorrow. Did you know that I am making a new page?! It may sound boring, But it's really cool, it gives interesting facts, help, and it has a new design. It should come maybe next month or sooner. For Halloween, I got a really cool setup! Unless you are an actor, you can't see it, but if you are an actor who knows me, come on over on Halloween!

Sun, October 21, 2007:

Sorry I couldn't post yesterday, I was working with pack 103'S Boat race. But when I came home, THERE IT WAS! FXHOME CAME IN THE MAIL! I am now adding fire to the Fire test movie. It is harder then I thought, It should come out in a few days. I also ALMOST have the money for a green screen! I am so happy!

Tues, October 23, 2007:

I am very happy with FXhome! I am going to upload the fire movie very soon. I made a huge mistake today when I rendered the fire movie, I saved it as a special file that was over 6 GB! My computer is stupid, so it crashed. I was able to render it back to AVI, But AVI is still over 100 MB! OH NO! THAT REMINDS ME! I think Youtube only lets me go up to 100MB! GTG!

Sat, October 27, 2007:

Hi. Nothing much other then A new movie has been happening. The reason I left so quick on the 23rd was because Youtube's normal uploader [They have a new one up to 1GB now] Only goes up to 100MB. But it was easy to fix, just load it to windows movie maker, and publish by clicking "Best for my computer" Oh, and I really want a new intro logo. The one now matches the website, but is a little boring, and doesn't advertise Rockstudios.org enough. If you can, or know someone who can give me a free logo, Let me know.

Tues, October 30, 2007:

I can't wait for tomorrow! HALLOWEEN! I got a really cool idea for my front porch, I will be sitting on a bench, with a big black bucket in front of me, with a fog machine behind it. [But the trick or treaters won't know about the fog machine] There will also be candy in the bottom of the bucket. When they come, I will turn the fog on, and say, "Take a bag of candy from my bucket..If you dare!" sounds cool...just ONE problem...The nozzle on the fog machine is VERY hot, if they touch it, they will get a VERY bad burn. I think I will let only the older kids do it. I'll let you know what happens.

Thurs November 1, 2007:

Halloween went OK, One teen [Who wasn't even dressed up as ANYTHING!] Took a hand full of little bags and ran off, so I started not to let them pick their own. I am about to go out with George VERY soon to make a new movie, that is if the rain stops! I think we will do a new movie Idea I have, and if we don't, we will do Big bag guy 10! That's all for now, I should get going now.

Mon, November 5, 2007:

Nothing has really been going on, but I need to post to tell you something that happened that's really cool. I got a early Christmas present! And you will never guess what it is! No, not a camera, [Not yet!] It is...Memory chips for my computer! For those who know about computers, I have 2 1GB Chips! But that STILL does not solve my problem with windows movie maker. I think my camera is not making the clips right, like some kind of corruption. Even the geek squad at best buy can't fix it!

Fri, November 9, 2007:

Not much has been happening. There is not much to say other then the fact that I can't wait for Christmas! I am getting a nice camera, and maybe even a tripod! [if you look at my movies, 2 of the main wrong things with them are bad quality, and shaky camera. This will fix both!!!!] Oh, and please tell me what you think of the BBG10, It you don't like it, we will make a new one.

Wed, November 14, 2007:

I Know I have not been posting in a long time, and there is not much to say other then the green screen won't be coming for a longer time. I spend all my money. I am VERY bad with money. [I don't mean you show me a hundred dollar bill And I steal it, I mean I can't save it] I bought a movie called um..hold on let me get the box...Zathura. It has very cool special effects! I also bought a game called "King Kong" For Gamecube. But what stinks is that it is rated T, and my parents are WAY over protective! T games and my parents DON'T mix! My dad just came home, Let me see if he and I can play it...See you later!

Tues, November 20, 2007:

I have some bad news, I made two Big bad guy 10...Can you let me know what one is the best? If you are a member on you tube, please rate it. Anyway, Thanks giving is very soon! SO IS CHRISTMAS! But I have some more bad news...I MAY not get what I wanted for Christmas! I saw this really cool camera at best buy, but it uses some new thing my computer can't handle, so we also need to buy some connector to make it work, and I want a tripod, If we get it today, [it is on sale today only!] It will total about \$350! If we wait, \$450! And if I DO get it, It will be all I get because of all the money : (

Wed, November 21, 2007:

There is just about NO chance that I'm getting a camera. My dad came into my room last night and said "I Don't think we can get you a camera this year." After some talking, he went, and later came back with a sale paper. he showed it to me, and pointing to a desktop he said he wanted that this year. You know what I said? I said, "No, I can't afford it, I need to buy a new camera remember?" That shut him up! I think the main reason we can't get it is because of some new DV thing that my computer can't use, Unless you buy a \$90 connector!!! [So the total price for a new camera is: about \$400!]

Sat, December 1, 2007:

Well, it's December! That means Christmas is soon. I hope I get a Wii. There is nothing really to say. I'll get back to you if something happens. Oh, But I did get my RC truck running! That's the good news. There is bad news, and much worse news. The bad news is that it will snow tomorrow. My truck is not water proof! The worse news is..It's not made for the cold. It broke.

Thurs, December 6, 2007:

Sorry for not posting for so long. Anyway, there is so much going on! Rockstudios's OFFICAL birthday is coming up in 2008! [Jan 4th] And rockstudios has a new series! THE CAT PAR 1 - 5! I think this may be our best! Best acting, best effects, and best story! Check it out on the movies page, or Youtube.com/rockstudios. I need to go, dad wants me off by 2:00, it's already 1:47.

Sat, December 8, 2007:

Are all sisters such idiots? No matter what I do, I can't get Rose or Ammanda to make The cat part 3! I offered to always be nice and never annoy them, I offered to clean up after them, Heck, I even offered them \$100! No matter what I do! Are all girls idiots? I'm never getting married. Rose is even worse then ammanda! She says she will NEVER make a movie again. And when she does, She drops out in the middle! I need to go play some games on Gamecube, I need to cool off....

Sat, December 15, 2007:

Sorry I haven't been posting..But there is about a foot of snow outside! And there is most coming tomorrow! I went sledding yesterday, and made a cool track, And over night it froze! It is SOOO Fast now! I want to make a movie about it later today. Oh, and my dad fixed the RC truck, Once the snow melts, [It won't be for a long tome sadly] I will make a movie about that. I wish ammanda and rose would make the Cat Part 3 - 5. Other then what I said, Nothing much is going on. SYL.

Mon, December 17, 2007:

I finished the new edit movies page! You can get effects in your own movies like us! Check out the page for details. Anyway, Not much has been going on. Yesterday me and Charly made the lost in the snow movie. Too bad it didn't come out too good, We had no time to plan it out. For once in my life, I wish the snow would leave! Once all the snow is gone and it's nice and warm out, We can start filming "Attack from mars!" I got the script all done, And there is not much to plan out, So now I'm just waiting. I do want to make a sledding movie, but the track is melting...Well, It's not even Christmas yet, So I'm sure I'll get a chance. I wish I could meet someone like me, everyone I know doesn't like making movies very much. Well, I got to go. I'll try to get back to you tomorrow.

Tuesday, December 25, 2007:

Sorry I haven't been posting Well, Today was Christmas! I got some cool toys, but best of all...I GOT A NEW CAMERA AND TRIPOD! A movie [RC] Is uploading right now, but at the time we didn't use the tripod. I also want to make a new clone attack movie, The old one had crappy effects. Rockstudios's birthday is soon! I want it to be a HUGE party! I don't know the exact dates yet, but once I find out when, I will start changing the site. I want to do something REALLY big for our party, E-mail me if you have a good idea. And I Have some REALLY bad news...NO ONE likes making movies! Joe quit a long time ago, but now George, Ammanda, And rose are going! Even Charly, but not as much. I wish I could meet someone who likes making movies too. I think my best buddy is going to be the tri- pod from now on!

Fri, December 28, 2007:

It's almost the new year! And for it I hope to have some party. I don't guarantee anything yet, but I want to have a party online here on Rockstudios.org starting at 12:00 and ending at 1:00, But there are 2 problems with that. 1. Who would be up then? 2. I need to be up then! I will try to let you all know if I do it, So keep checking back. This will be a great party!.....Hold on.....Ok, I just ran in and asked my mom...It looks like I can do it! So PLEASE meet on rockstudios.org at 12:00 on new years day..It will be a great party! PLEASE JOIN US! I hope to have a special chat room, free games, and more! IT WILL BE GREAT! I'm going to start it now... GTG!

Sat, January 5, 2008!

Darn! I forgot all about rockstudios's birthday! Oh well. Happy new year! [Yea, I know it's late, But I've been busy. I am thinking of making an all new home page, and maybe doing the whole site over. I think the site it too boring. Well, This has nothing to do with rockstudios, but I am ordering A new zoo tycoon game! I'm really bored. I got 2 main problems...1. No one wants to make a movie [Other then me!] 2. Even if someone did, I have no ideas! Well, If I'm going to fix up the site, I better get going. SYL!

Thurs, January 10, 2008:

I am updating the website! Boy is it allot of work, but I'm almost done. you can check it out, but until I'm done, you may see some errors. Well, other then the site update, There is not too much going on. My zoo tycoon game came. I better go and finish the site. I can't wait until It's all done! see ya!

Sat, January 12, 2008:

The site is up and running. Let me know if you find any errors. I hope you all Like the new site. E-mail me with your comments and suggestions at Overall@rockstudios.org. Other than this great new site, nothing is really going on. Me and George want to enter a movie making contest [Winner takes \$1000!] But we don't think we are good enough. SYL.

Thurs, January 17, 2008:

I updated this site a little more. I added the guest book on the home page, and Also added a Vote box you can open by a link on the home page [Both under "News and events"] Trouble is almost done, I want to make it into a whole series. [See sneek peek page, which I also made today!] Other than that, I am bored. Sorry nothing much is going on, but I can't help it.

Mon, January 21, 2008:

There are two things I want to do: 1. Make a new intro logo, it will show all the actors, 2. Update all the pictures of all of us, we don't even look like our pictures anymore. I am bored. OH!!! ALMOST FORGOT! I got a great idea for a movie, it may be better than attack from mars! It is a movie about a twister! But it won't come out for some time, I don't think I even told any actors yet. Well, GTG.

Tues, January 22, 2008:

I Can't wait to start filming TWISTER! It is going to be so great! I have so many ideas, One is that I will make some of that sugar glass for all the windows to break on me, [I think I will be the main actor, but maybe rob will. George I think will be the co-star] And I will crush up bits of sheet rock and have my "Special effects team" [Dad] Drop it on me to make it look like the house is falling apart. [There will be tarps so I don't make a HUGE mess!] I also want to go to a yard sale and get some dishes and stuff to be falling out of cabinets and off shelves, and I want to borrow my dad's HUGE fan for the the wind effect. I am already starting to get ready for it, I even already filmed scene one! Well, That's all for now!

Wed, January 30, 2008:

Sorry I have not been posting. Nothing is really going on. However, The twister movie is coming closer! I can't wait! If you want more details on this movie, check out the sneek peek page. I hope I get a green screen for my birth day!

Mon, February 4, 2008:

Sorry I haven't been posting. Other than the twister movie, nothing is really going on. I just got back from a rabbit show yesterday though. I Made a movie that should come out soon. Boy am I bored. I haven't seen George for a few days now. Maybe I'll go over now and see if he can make a movie. SYL.

Tues February 12, 2008:

There are so many movies I want to do, But they have to wait until the snow melts! I am really looking forward to the twister movie, [I think I will change the name, TWISTER is a real movie] Because Once I get the green screen, [My B-day, the 28th] I can Make some shots with or without snow. I also can't wait for the sun movie. That will be cool, [Well, hot] But I REALLY need all the snow to go for that one. I also have some other small Ideas, Trouble part 2, The ghost, And the day everything came to life [Ver. 2] I'm sure spring and summer, we will be very busy!

Mon February 18, 2008:

I got an early birthday present...2 GREEN SCREENS! I already started test, But it's harder than I thought it would. you need perfect lighting, and perfect editing! [Of course, FXhome makes it easier, But it's still hard] I already have a test on youtube, Check it out on my channel [Youtube.com/Rockstudios] I Can't wait for the twister, But it looks like it will be harder than I thought.....

Thurs February 21, 2008:

Green screening is harder than I thought. Probably because of my camera, It is too simple. I think if I work more on the computer, I'll get the hang of key grading. This will make the twister movie even harder! I hope I get better at it soon.

Wed, March 5, 2008:

Wow, I haven't posted in SO long! But I have some good news..I will soon be making a new page called...ZACKS GAMES! Yep, that's right, Games I made will be on this page. But there are some problems, I can't upload my games to my server because I am pushing the limit on MB already, So what am I going to do? I Found A good site called Yoyogames.com, But I can't put ALL my games on there. So, If you know any file hosts that are free and safe, E-mail me please. Oh, And in other news, the Twister movie is going to be tricky. I'll try to tell you more next time, I try to keep a limit on my posts. Bye for now!

Mon, March 10, 2008:

It looks like we are not doing the \$1000 Movie making contest. It ends on the 14th. Oh well. Maybe if a Idea hits me soon, we can quickly do it. Oh, And you may have noticed the new Audio stories I made. Let me know if you know any free and safe websites lie youtube, but only for sound. The snow is starting to melt, But last time I said that we got a few more feet of snow! I think it is really going away this time. I made an Audio story about a tornado, check it out! Well, I better go and finish school [I'm home schooled] SYL!

Thurs, March 20, 2008:

I know I haven't been posting in a long time, But that's because nothing has been going on. Well, Today I finally finished the Games page, And I updated the help page a bit. Right now I'm working on a game when you are in WW2. I still have some bugs to fix though.

Sat, March 29, 2008:

Nothing really has been going on, but we are starting to work on the twister movie. [Check out a test we made on youtube.com/rockstudios] I want to start a podcast, If any one out there know how to make one really easily, let me know.

Mon, March 31, 2008:

Nothing has been really going on. We finished a test, you can check that out on our channel, and I am done with The whole "Into the future" Series. But, Other then that, Nothing is going on! I'm very bored. Right now it is raining a little, So even if I had an idea, We couldn't do anything!

Fri, April 18, 2008:

Boring.....nothing has been going on! Well, Yesterday I got a new Printer/Copier/Scanner, But I don't think that would interest you that much. I hope I can work on the twister movie soon, I Don't know if Im done with school or not yet, [That's homeschool for you] But If I am, I want to go out. The hardest part with movie making at my age is actors. If I don't want to make a movie, They do, If they don't I do. Oh, Did I ever tell you about the Emotiv headset? It reads your brain! You can play games...JUST BY THINKING ABOUT IT! I can't wait to buy it, It's about \$350, I have \$11.48. [I had \$100, But I just HAD to get that printer!] Well, I guess Im going to go now. Maybe George will make a movie with me, That is, if Im done with school....

Tues, April 22, 2008:

Hi. It's me again. [Who else?] Well, I pretty bored. I'm not done with school yet, [I'm home schooled, Read other posts for more on that] So If I need to leave suddenly, That's why. Well, I finally finished the Secret Actors page [SAP] It your an actor, E-mail me for instructions how to get to it. Well, Other then The SAP page, I also made a new page for Pictures, so you can see what the "office" looks like and other stuff. remember the fista script? Go to my first or second post, it talks about it, But I think I'm going to try to make it. The script could use a little work, But it isn't too bad. Well, I guess I better go. See Ya!

Mon, April 28, 2008:

I got a new sign up. Only this one is different. I've never met him. So far all the actors are kids who live near me. This is my first ever online sign up. Well, In other news, I got a new microphone! It is very good quality! But the problem is it is built into a headset, So other actors will have to use the old mic. [If I can find it, That it] Right now, It is a gloomy rainy day, And I need to start school soon. Better go, See ya!

Wed, May 7, 2008:

For some reason the podcast is not working! I'll try to fix it, but Just in case I better look for a new host! Well, In other news we finished the Hacker part 2! I stayed up until 11:00 at night, then woke up a 7:00 in the morning! Light sabers sure are time consuming! I wonder what I'm going to do for Hacker part 3, Part 2 had nothing really to do with Hacking. Maybe I will start a whole new series, like the big bad guy, only the Hacker! Yea, The more I think about it, The more I like it! Oh, And speaking of the Big bad guy, I want to make that series all over again, Now with a green screen, we could really have the big bad guy be a giant human! Well, That's all for now!

Thursday, May 8, 2008:

I think I'm all done with the twister script and story board! I just got to show it to the actors and see what they think. Boy did I make it hard for myself, So many green screen shots! I am thinking of posting a preview on here, But I don't want anyone to steal it. [Yes, it may be that good!] However, I made this more of a emotional movie, it has lots of action, but mostly crying, talking, and such. It's going to be a big job doing the whole movie, But I am sure going to try. And for all those actors reading this right now, Come on over and check out the script!

Mon, May 12, 2008:

Im really bored. I was in bed all day [and night] today. I am feeling sick. I hope this gets over soon, I want to finish TWISTER! well, I don't feel like talking. Bye.

Tues, May 13, 2008:

I feel better today, I guess I won't get out of school. Oh, Would you like the lowdown why Twister is taking so long? I need a new green screen The one I got is made of plastic, I thought it was cloth. So now I need to buy a new one for \$50! The problem is, I have no money! I want to mow some grass to make some money, But the mower is broke! I want to work with my dad, But he doesn't really need me! I want Google adsense, but I'm not 18! Sheesh.

Wed, May 14, 2008:

I have some bad news. Before you read this, Check out this post: Wed, Sep 19, 2007. Did you read it? My mom and dad said that some one wants to buy our house! Well, IT IS HAPPENING AGAIN! Only this time I KNOW I didn't hear wrong! Some one may come this Saturday or Sunday! If we move, All the actors will live too far away to make movies!!!! this is horrible!!!!!!!!!!!!

Thurs May 15, 2008:

I may be going camping on Friday, but it may rain. If I do go, I won't be able to go to the meeting room, sorry! Oh, and my last post about moving, FALSE ALARM! I can't really explain it fully, but don't worry, I'm not moving! Well, In other news about the twister movie is that I need a new green screen. So I need to save up for a cloth one. Well, That's pretty much it. See ya!

Sun, May 18, 2008:

I just got back from camping today. Sorry, I didn't make a movie there, But I learned a new sport.....Are you ready for this?.....PAINT BALL! So maybe some time I will make a movie about a paint ball fight! The camp I went to is the same as in "adventure in the woods" Movie. Speaking of adventure in the woods, I want to make a new movie about that. Maybe I should think of some ideas. Oh, and about the tornado movie: It won't come some time. I need to raise money for a new green screen, Then I need to film the shots. This is going to be VERY hard! Well, I will do my best!

Thurs, May 22, 2008:

Not much has been going on, Other then I finished the SAP page! So, If your a member, Check it out! I even added a Budget report, so all members know the budget. I am thinking of having 2 SAP pages. One Would be the normal SAP page, and the other S.M.P. [Secret members page] for those just working over the Internet. I don't think I will do it today, I already been on way too long, Ad I still have not done my school. Well, Bye!

Friday, may 23, 2008:

I am going camping later today! [Also to use the marker!] I hope to make a movie, But I don't know. Oh, I updated the Member terms, So if your a actor, Please look over them again and make sure you agree to the new terms. Well, Other then what I said, It's a pretty boring day. Oh, I would like to make a shout out to the person who checks my post the most...HI SALLY! oh, Sally, If you don't do a movie soon, You could get removed! So lets hurry up and do hacker part 3 when I get back! Well, See ya!

Tuesday, may 27, 2008:

I have been very busy! I am going to order a DVD case editor so I can make movies, and put them on DVD's so you can see them on your TV! They will have interactive menus, Real cases, All of that! There are 2 REALLY big problems. First, is the government. If I start making too much money, I will need to pay tax. [But I'm not 18 yet, So that will get VERY confusing!] The 2ND is that I will have problems shipping the DVD's to people. I guess I better think of a way. I have been working on an order page, But I'm waiting for the twister movie to come out to get too into it.

Thurs, may 29, 2008:

Guess what I'm doing! Go on, Guess! Ok, Give up? I am setting up my own store! Now you can easily but Rockstudios exclusive movies! [I bet you didn't guess that! if you did, Then good job!] Want to check it out? [CLICK HERE](#) for a test page. [You will not really be charged, Just make sure your name is TEST of something like that] Oh, And [CLICK HERE](#) to go to the twister page! [You can also reserve it from there!] I just hope I don't need to start paying taxes or something. Im not trying to get rich selling movies, I'm just trying to get the experience and fun out of it. And I need to support the all new Rockstudios budget! [Actors, Go to the SAP to check that out!] Well, There is really no other news. Just the usual "The twister movie is going to be hard" And "I NEED MORE MONEY!" And "I WANT HAM!" Oh, Maybe not that one. Well, Goodbye!

Thursday, June 5, 2008:

Well, I got a new submission today, check out the games and programs page to see it! In other news: We are working on some great movies! we are working on, "The big bad guy", "The day everything came to life", Ad of course, "TWISTER!" 2 of the 3 I'm waiting for the green screen. Oh, And unless I get a great idea, we are not doing "The sun too close to earth" There is not really anything else to say. Bye.

Sunday, June 8, 2008:

After much thought, I decided to mark the violent games as "Failed" Rockstudios code. This simply means it has lots of gore and violence. This goes against Rockstudios code, However, For a teen, These are fun games. Well, Got to got. [Idiot dad]

Tuesday, June 17th, 2008:

I know I haven't been posting, But I have some great news! I finally finished the TWISTER script! It's going to be great! Also, I only need to work with my dad 5 more times, then I will have enough to finish the movie! Twister is coming along good! I even finished the DVD menu. [Yes, It is going to be on DVD!] However, There are a few problems. First is that this movie is more emotional then action. [And I HATE emotional movies, but for some reason that's what I always write!] and next problem is that this movie will include my mom, dad, and even grandma! None of them can act, And I know my grandma won't want to be on youtube. [She thinks is SO freaky] so that is the main problem. Well, Other then that, It coming good. Bye for now!

Saturday, June 21st, 2008:

I have a few problems. My Computer is read only for DVDs, Meaning I can't put movies on DVD without buying a \$110 external disk drive. I bet you can guess what this means: Twister movie will take even longer! I don't think it will come out on Youtube. Oh, I have some GREAT news! I ordered the GREEN SCREEN! Well, It's late. I better go. Bye!

Sunday, June 22ND, 2008:

I have decided. TWISTER will not be for sale, IT WILL BE FREE! There are a few reasons. 1. The stupid government would want me to pay taxes. 2. Legally, I can't sell stuff. 3. If I mess up, People will be mad because they wasted their money. However, I think I may make it possible to order a DVD, but you pay shipping. [hey, It's only fair] I'm still trying to figure that out though. OH! did you see the update to the games page yet? If not, Go see it NOW! It's awesome! Well, Bye!

Monday, June 30th, 2008:

Ok, First of all, I'm sorry if I missed the podcast. I have been pretty busy. [I got a new game called "The Sims 2" I don't know if you ever played it or not, but if you did, you know why I didn't get to make the podcast!] But, anyway, I filmed the part of twister with my grandma! We still have some work to do, But at least we are working on it! My grandma was really pretty good. [But there is a LOT of bloopers!] She didn't have TOO much a problem with being on Youtube. Oh, And I was just speaking of the Sims a little while ago, Guess what! No, Really, Guess! I am going to make movies with the Sims! I already started one about the Gunnady family. [Get it? Gunnady, Gunna Die!] Well, I Got to go. Bye!

Thursday, July 10th, 2008:

I know I have not been posting for a long time, I'm sorry. But I have some GREAT news! The green screen came! its a really nice green screen, But I can't seem to get good lighting on it. [Check out the new actor pictures!] When I bring it outside for sunlight, the smallest bit of wind blows it over. So I really don't know what I'm going to do. I MAY even need to cancel TWISTER, Big bad guy, And shrink! [Shrink is a movie idea we had a while back. You can guess what it's about] Oh, I think I may have fixed the exclusive movie problem! What about this: Rockstudios has a suggested donation amount + the shipping. You must choose to pay shipping, but its up to you how much of a donation to pay! [Come on! Don't be mean! Give at least 3 buck ok? What, Are you too poor?] Well, I think that's pretty much it. I better get to work on the podcast, I don't want to forget it like I did a few weeks ago! Bye!

Sunday, July 27, 2008:

Hey all, I'm really sorry that I have not been posting, I'm also real sorry that I missed many of the podcasts! There is just no news! [Other then that we need a cover designer, But you should have already read that] So...If there is no news then there is nothing really to say right now.....OH! Rockstudios had a booth in George's carnival! It was great! There was a TV to show our movies [Hacker 3 to be exact! Well, At least the exclusive sneek peek] And a giveaway, and a smart or dumb test, and even a donation can! [Only Johny gave though. The amount in donations didn't even make the price for the giveaway!] Well, I guess that's all for now!

Monday, August 4th, 2008:

OH NO!!!! I Deleted some of the movie files needed for BBG1!!!! I will have to re-do it all. Oh, And I know you are all waiting for hacker 3, But The lightsabers are so annoying! I'm on the final battle, So it should be out soon. Oh, And news about the twister: IT MAY NOT COME! I can't find any place to set up the green screen! Out side is too windy, And inside is Really bad lighting! I've tried EVERYTHING, but ONE thing....I will have to try it at my church. They have a bunch of lights on the stage, and no wind! I sure hope it works, If it doesn't, I may need to cancel TWISTER! However, The parts of BBG that need a green screen are short, and only use part of the green screen. I may just be able to do that in my living room. [Or the church, If it works.] Problem with the church: There are many meeting there, and I would need to set up a date, but I don't know what date! Well, I better go.

Friday, August 8th, 2008:

I am updating around the site, mostly on the movies page. I also want to get around to fixing up the News page, But I don't think I will do that today. As you may have noticed, I am doing away with ads! [However, I will make ads upon request for whoever want an ad.] This Sunday I will ask the pastor of my church if I can use the green screen on the stage. I hope he says yes...This is my last hope. If this goes wrong, I won't really be able to use the green screen, Meaning all green screen movies will be canceled! [Including TWISTER, big bad guy, and others!] Well, I guess that's all for now.

Monday, August 11th, 2008:

GOOD NEWS AND BAD NEWS: Good news: I filmed a test at the church! BAD NEWS: IT DIDN'T WORK!!! Because of this, TWISTER is canceled! I will keep the shots and pictures just in case we do it some other time, But no time soon! BBG and other movies with green screen we will still try. We couldn't do TWISTER because it required full screen long shots, BBG need small and very short shots of the big bad guy. Well, I guess that's all for now.

Monday, September 1st, 2008:

Ok, I know your all sad about my last post about the twister movie, Well, I got MORE bad news. As most of you know, I am homeschool, and right now I am on summer vacation. Well, School starts this Wednesday!!!! [Just because I'm homeschool doesn't make it much easier!] So I know we are already slow at making new movies, But once school starts it will slow even more! Well, In other news, I want to make a new paintball movie. Many of you already saw my old one, "Paint Ball fight" And it stinks, So I want to make a new series based on REAL paintball games I played. I guess that's all for now. Bye.

Tuesday, September 9th, 2008:

Hi all. I recently got a new prop: A realistic pistol! But there are a few problems: 1. It looks so darn real, It can't be seen in public. 2. I though it was a low powered Airsoft gun for shooting people [Like paintball] only now that I look at the instructions and packaging I see THIS IS A REAL BB GUN! It can shoot over 3 football fields!!! Now I'm real scared to use this in a movie for fear of someone calling the police! [of course I wouldn't have it loaded, Even if it was loaded it wouldn't shoot without CO2 gas.] I guess this is a prop for my back yard mainly! well, In other news, I started school a little while ago. [In fact, I'm suppose to be doing it now] So like I said in my last post, Movie production will slow. Oh, And know your all waiting for Hacker, Right? Well, Blame George. [He said he would finish it] Oh, And if George is reading this now, Why don't you ever come over to do Hacker 3, Huh?

Friday, September 12th, 2008:

Remember "Crime doesn't pay"? It was kinda a stupid movie, So we may be doing a new one of it, Only instead of Johny and Cody, It will be Johny and Me!!! I already have a script started, But it's real hard to get it just right. This won't be out for some time though. And here is the latest news about HACKER 3: I am Near the end, but I may still be a little while. I really need George's help. He said he likes doing lightsabers, Well, I HATE doing them! Oh, And did you all see that pistol test I made? That was the pistol I talked about in my last post. It looks pretty real, Right? Oh, And I did this some time ago, But I removed the member system. There is no such thing as becoming a member on Rockstudios anymore. Well, I guess that's pretty much it. I'm bored. Maybe George will do hacker soon.....

Monday, September 15th, 2008:

Ok, Hacker should speed up a little now. I gave George [The newly retired actor] the DVD that holds Hacker 3 and it's files. Once he finishes it, It will be on Rockstudios. It will come out on Rockstudios BEFORE Youtube, So if you want to see it, You must come here. [See news post about that] Well, In other news, There is a new "Dead Actors" Page Where all retired actors go. You can get to it from the actors page. Speaking of dead actors, George recently quit. He should still be helping out a little [Like With Hacker 3 lightsabers] But he probably won't be in any more movies. Rockstudios is running very low on actors. I think I may be able to get some from my church, but they live a little far away. Oh well, I guess it's not that bad. I Don't really need any actors yet.

Saturday, September 20th, 2008:

HACKER 3 IS DONE!!!! It will be released right here on Rockstudios at 12:00 on the 22ND! Be sure to come and see it! Also, Hacker is coming out on DVD! [It will come out once It comes out on the site.] I bet Hacker was our slowest movie to make ever! Well, At least it's done now. Oh, And by now you should know that George quit right? well, It's almost sad. if he didn't move in and let me play with his old camera, Rockstudios would never exist. well, In other news, I have been going over my website tracker, and I have some good news! Lots of people are finding Rockstudios from searches! That means the search engines have finally found Rocksudios, Meaning Rockstudios.org is no longer new! Oh, another thing, What do you think of the review page? So far they are all my reviews, so if you want to, You really should go there and make your own movie review! It's free and easy. Well, Good bye! [I think this my longest post yet!]

Friday, October 3rd, 2008:

BIG CHANGE IS COMING!!!!!! I may convert Rockstudio's whole base...It's kinda hard to explain, But you will know what I mean once you see it. [[Click here](#) for a hint] if you don't like the new Rockstudios coming up, Don't look at it. Rockstudios may join up with another kids made "Company" To get the job done. The other kid made "Company" has lots more story in their movies, better acting, and are much longer [30 minutes or more each movie!] I was thinking they could help Rockstudios with length, acting, and other problems, While we help them get a little more action in their movies! I can't wait, I will probably talk to the "Owner" This Sunday. see you later!

Saturday, October 4th, 2008:

The Big change I talked about yesterday may not come for some time. That would require changing EVERYTHING that had the old Rockstudios logo on it....That would be hard. [All my business card would go to waste, And I still have about 100 of them!] Well, in other news, That Emotiv headset I talked about earlier is coming soon. I am trying to raise money for it. [\$299 +Tax] So I won't be able to give any money to Rockstudios for a while. Oh, And as I said in an other post, I am going to meet with another "Owner" of a kid made movie company! Hopefully we can make a movie together. Well, I guess that's all for now. I'm kinda bored.

Saturday, October 11th, 2008:

How would you like it if Rockstudios went HD? I am thinking about getting a HD camera. Well, In other news I made some new actor pictures and updated the actor page, So go check that out! Oh, Did I tell you about the KIA? Well, It's a movie I'm working on. it's going to introduce some new actors, and it will be almost half an hour long! HOWEVER, this movie is based on that "Big change" I talked about on the 3rd, So some of you may not like it. Oh, And speaking of the big change, I ordered some new business cards, a pen, and even a T-shirt for it! I Don't think the big change will come until 2009 though. Well, That's pretty much it. Nothings really going on.

Tuesday, October 21st, 2008:

Good news! as of today, Rockstudios has over 20 subscribers on Youtube! [21 to be exact] This means more and more people are finding...And liking...Rockstudios! Oh, and remember I talked about meeting with another kid to do a movie with? Well, Hopefully he is coming over tomorrow! I hope he will help me go over my latest script...The KIA. [find out more about that on the all new sneek peek page!] Well, other then that there isn't much going on.

Thursday, October 23rd, 2008:

You may have noticed a few changes, First of all, I'm working on a whole new search engine for Rockstudios, And second there is a whole new ROCKSTUDIOS FOURM! Now you can go to the forum for fun, ideas, help, and more. Check it out! Also, That other kid who has his own "Company" Like Rockstudios was here just yesterday! There currently is a new video on Youtube...its a sneek peek at the KIA! Hopefully next time we meet we will finish more of the movie! Well, I got to go. See you in the forum!

Friday, October 24th, 2008:

Did you see that sneek peek yet? If not, Go check it out now. Did you notice anything different about it? It has subtitles for the hearing impaired! Hacker 3 also does too, And I'm hoping to do more movies! Also, Did you see the new forum? Click the tab on the navigation bar that says "Forum" No registration is required unless you want to post. Also, I put a test video on youtube, its a test for KIA intro. You may have noticed, But KIA will also have all new actors! [Including the one in the sneek peek] that's pretty much it. Hope to see you in the forum!

Monday, October 27, 2008:

I still can't decide what to put in that spot that says "Under construction" [If you don't see it, Then I fixed it already!] It used to be a search, But I removed that for 2 reasons: 1. It was Kinda worthless. 2. I created a new Google search that you can see at the home page. So E-mail me if you have any really good Ideas. Well, in other news: KIA movie is in trouble. If we don't finish it before it starts snowing [Like, in a few days] I will have to wait until NEXT year! Oh, I may make a new clone attack movie! [only this will be called "Clone's revenge"] I want to make a few tests first. [Like to see if I can get two clones to fight hand to hand combat...That will be very hard....] Oh, Go check out the history page, I made lots of updates on it. Well, That's pretty much it. I got to start school soon, I Just can't stop putting it off.

Thursday, November 13th, 2008:

Hi. Not much is going on, Other then the Hidden killer movie that's coming soon. I changed the whole script around to make it easier on the actors and me. However, There are still many little problems mainly casting related. Now that George is out, And most of the others are following, I'm Kinda running out of actors. You may have seen a new face in the KIA sneak peek and the Escape test, He is Mike Elliott. [Check out his soon to be updated actors spot on the actors page!] Some thing strange has happened....I can't say the name because that would be mean, But an actor is quitting in the same way George quitted, By making a excuse about the clothes needed are in the wash....That excuse got old after about a week....But it's strange how 2 actors have used the same excuse. Well, not much is going on. Me and ammanda are getting ready to film another part in The Hidden killer movies. See you later!

Thursday, November 20th, 2008:

Just got back from vacation. I uploaded a funny video about a staff member at the place we were staying, Check it out! Well, Other then that, I asked Sally if she could play a part in the Hidden killer movie, And she said yes! Hopefully we will finish filming soon. Not much is going on. I guess I better finish the Hidden killer script. Bye!

Monday, November 24th, 2008:

You have probably seen some of the short videos me and some other guys made at my church. [It doesn't really look like a church, Looks more like a factory or warehouse!] I would like to make a real full movie there because when we do it after youth group, There at something like 20 kids if not more who want to do a movie! The only problem is that we don't get enough time to do a full movie! I guess we will stick with these short tests, but they get old after a while. Well, there isn't much else going on. See ya!

Wednesday, December 3rd, 2008:

It's almost Christmas! I decorated the Home page to celebrate. This Sunday we are going to work on a short movie that is just the like Escape tests, Only longer and hopefully much better! I recently downloaded some more great music from my Music provider, and it's awesome! so awesome ,That I put it on my Ipod to listen to over and over again! The escape movie will be the first to try using a story board, so I'm looking forward to see how that comes out. Oh, Would you like to hear a little secret? I'm bringing back the podcast! Not only will it be much better then before, but it will BE ON ITUNES! now it will be easy to download and listen to the latest Rockstudios podcast! I'm also thinking about bringing back the audio stories! However, Both of these are still work in progress. I'll let you know when they officially come out. Well, I guess that's all for now.

Saturday, December 6th, 2008:

Not Too long ago I started to delete ALL music that wasn't from Freeplaymusic.com. So from now on, Music you hear in the background will be 100% from Freeplay. [But the short orchestral phrases are from elsewhere] Well, other then Christmas there isn't much going on, Well, I DID finally finish the Hidden Killer script, So hopefully that will speed up now. I want to get it done before we get too much snow. [We could get quite a bit tomorrow] I hope ammanda will finish the movie. She has been complaining, I think after we finish Hidden Killer movie I may need to remove her from the actor page. OH! I ALMOST FORGOT! Tomorrow, I'll be meeting with Mike again to make a much longer version of the escape tests! I better get ready for that, See you later!

Thursday, December 11th, 2008:

I have two big announcements to make: First is that I could be getting a corn snake for Christmas, and second is that I found a really cool website called Vimeo, It's just like Youtube, Only it supports HD movies, with no time limits! All Rockstudios good movies [Like the hidden killer] will be on there in near HD quality! [My camera isn't HD, so there is no way for it to be full HD, but it's pretty close!] Well, I guess that's all for now. See ya!

Friday, December 12th, 2008:

So, you probably noticed some major changes to Rockstudios. This is because we have has some problems with the music in our movies. It turns out I read the terms wrong, And thinking it was free I put it in all our movies. Well, I think I found the solution. The terms say I can not broadcast the movie in public, or sell it, So I decided that our movies will be available ONLY to people we know and friends. [But only for the movies that had the copyrighted music in it] So, That's pretty much it. I also removed the games page and some others so I can work just on movie making. I will be working on some more features for the website, So check back. Sorry.

Tuesday, January 13th, 2009!

Wow, I haven't posted in so long, But that's because nothing is really going on! I am having second thoughts about the hidden killer movie, for many reasons, Including: Is it really that good of a movie? Is it ok that it is an exclusive only movie? Is it too long? Too short? Too boring? Too much horrible acting? to answer these questions, I loaned a sneak peek DVD to my good friend, Mike Elliott. I hope to see him this Sunday so we can talk about it. Well, In other news, I am looking for some new good music for my movies. I could really use you help, please let me know if you find any good, free [Or Super cheap] music that I could use in my movies. I am currently thinking about buying a \$130 CD, and I really would not like to pay that much if I could get other music for free. [Or cheaper] [Check that CD out [HERE](#)] Well, I that's pretty much it. See ya!

Saturday, January 24, 2009:

Finally, Something to post about! I have 2 things I want to say, the first is that I got some great music for future movies! This is real Hollywood stuff, and I can't wait to see it in an upcoming movie! [but I will wait for the \$129 bill] The other thing I wanted to say is about th hidden killer movie: I decided to start over with it [NOT with the filming of course, but I am going to re-edit it] the whole movie has not been shot yet, so it won't come out until spring [Or possibly summer] anyway, so I have no real reason for not starting over in order to make it better. I did most of the editing wrong last time, So if you were to watch it it would look extremely unprofessional. Also, It would be nice to remove the copyrighted music and other junk and put in better stuff. [Like the Hollywood style music I was just talking about] I sure to hate winter, It slows [Even stops] Movie production, and it really hurts our popularity. [Closing the youtube account was the hardest thing I ever did, I am even a little ashamed to admit that I was crying all night, But the past is behind us, Lets just look forward] I guess that's it for now! see ya!

Tuesday, January 27: 2009:

I hate winter. It is almost not possible to create any movies because of the snow and temperature. The only things we are able to squeeze in are short tests. However, with these short test come some better experience for movie making, so this leads me to think that this summer will be THE year for Rockstudios! By "THE year" I mean that we are going to pump out some of our best movies ever, Including the hidden killer [Ver. 2] By then I may have the HD camera I'm looking at, and we already have that great music, AND I think I have some more experience in FXhome!

Tuesday, February 10th, 2009:

Do you or someone you know like to play runescape? If so, Check out a new page I'm working on: [Runescape hints](#). If you know any good ways to made gp, You can submit them here! Well, other then that, there isn't much going on. I don't expect to start hidden killer until spring, [A few months away] and we have no other plans for movies. Well, I better go and work some more on that runescape page. Check it out, ok?

Wednesday, February 11th, 2009:

Rockstudios is back on youtube! well, Sorta. I've created a new channel made just for showing information about the hidden killer movie. [Check it out here](#)! I have two Ideas for getting new actors for the hidden killer movie...One, I am thinking about posting a notice in my church. Two, I am thinking about "Merging" with I.S.P. [He will probably change the name if we officially merge.] If we were to merge, we could help him [With our professional music, special effects, and my action directing] and he could help us [With his custom made music, Actors, and drama directing] and together we could create a really great movie. Nothings official, but I'll let you know if anything changes!

Friday, February 13th, 2009:

Today might be Friday the 13th, but this is a lucky day for Rockstudios! I am thinking about giving the WHOLE site a fresh new makeover! It will have really cool gradients and such, however, There is a problem. My Site editor doesn't support gradients, so I will have to upload my own custom images...It may take longer, but the final product will be worth it! You may have also noticed that the advertisements I currently have on the site are really slowing down page loading, So I will be looking into that. The advertisements are not for profit, I advertise their websites, and they advertise Rockstudios. No money involved. Well, I better get back to work on the new Rockstudios. Feel free to let me know what you think! [I may also be updating this post page so it's a little more dynamic and not so long and boring!]

Monday, February 16th, 2009:

The New site is all done. [Took much less time then I though it would....] I still may add some pages though. I really could use an animator to help with the hidden killer movie, For the part when the house blows up [I won't say weather or not the guy dies.....] I can do the simple overlay preset, But I would really like to get some debris to enhance the effects. [Like windows crashing, glass flying, Door fly's off it's hinges, Etc] If you can, Or you know someone who can, Please direct them to me. There is no pay or anything, But special credit will be given. I am also experimenting on getting this post page a little more dynamic. Right now it's Sorta boring, and hard to find the post you want. Let me know if you have any good Ideas for that. I guess that's all for now.

Friday, February 20th, 2009:

Not much is going on, But I did make a few updates around the site, Such as the ad on the movies page, and the news and events bar on the home page is no longer empty. I hope hidden killer goes OK. This will be our first REAL movie, After this all the others will just be considered tests! I hope this isn't going to fail like the Twister movie, or KIA. [Past movies that never made it. Read more in older posts] I did my best to make the Hidden Killer script good, but not too hard for us. [That was the problem with the past movies] The hardest part for HK will be getting the actors together, And the one action scene when Jack blows up the house. [I won't say weather or not Joe dies....] I want the actor to be blown back by the blast, and have lots of camera angles. [Worst case scenario, We simply don't show the explosion.] be sure to check the Hidden Killer channel on youtube for updates.

Monday, March 9th, 2009:

Well, Spring is coming. That means that it's almost time to start filming Hidden Killer. I'm just having some trouble with one of the main actors, My sister. I can't tell if she wants to do it or not. The more I act like I need her, The less she acts like she will do it. Feel free to send me an E-mail that I can forward to her to convince her. If a bunch of people from the Internet are telling her personally to start the movie, She may have to! Oh, That reminds me, I finished the Script for Hidden Killer. I want to have a meeting to help make the script better though. Well, That's all for now.

Tuesday, March 10th, 2009:

Not to long after my post yesterday, We started to film parts of Hidden Killer! I uploaded a preview to the Youtube channel, So be sure to check that out. However, I think It went very badly. We went to the first location to shoot, and spent about 3 or 4 hours there, Then I saw that Jean [Played by Ammanda] was wearing a sweatshirt...And the movie takes place in the dead of summer! Unless I find some way to work it out, that whole time was a total waste of time. Not only that, But on my way home [The location is just a few blocks away, so I walked] the bag holding all the props and equipment [Including the camera, Laptop, microscope, and other expensive stuff] ripped, and spilled all the stuff all over the paved sidewalk. Luckily, Nothing was broke, and a kind neighbor gave me a giant Ziploc bag. I certainly hope future movie shoots will go much better.

Thursday, March 19th, 2009:

Hidden Killer is going to be our hardest to film movie. The Hacker's lightsabers effects were hard, but we filmed all that in a day or two. Hidden Killer could take about a month. [I'm talking about filming, not planning, editing, etc.] The hardest part is finding a day that works out. if it was up to me, I would just point to a date on the calendar, and film then. But it's not up to me. It's up to the *Actors* [I said *actors* in that strange mocking voice.] By Actors, I mean *Ammanda* [There's that mocking voice again] she is being such a.....Girl. "Hey ammanda, wanna start filming Saturday?" I ask her. "Maybe" she replies in her yucky voice. That Saturday: "So ammanda, you ready to film?" I ask. "No, not today." she replies, in her evil girl voice again. Send me an E-mail with the subject "STOP BEING A JACKA ** AMMANDA!" to Overall@Rockstudios.org and I will forward it straight to her!

Tuesday, March 31st, 2009:

Hidden Killer is coming along pretty well. We still have a lot to do though. Our next "Official" movie shoot is this Sunday, then another on Monday. Monday is the day I'm worried about. It's the date that we film some of Ammanda's shots. [Read my last post and you will know why that's a bad thing!] Sunday should go well, It's the shoot date with my Dad. [The father of Jack] His shot is really short, but he hasn't been in any movies yet, so I don't know if he is a good actor or not. Well, Other then these two days coming up, there isn't much going on. I sure hope we will meet the deadline to finish Hidden Killer. [June 21st, but that's not when it is released to the public.] This is going to be Rockstudios' first REAL movie. It's sort of scary having to satisfy all the viewers, but as long as we have fun, that's all that matters.....Right?

Thursday, April 2nd, 2009:

It used to be that every year, just before my birthday, I would get sick. I thought that was over, but it looks like that returned to ruin the Hidden Killer shoot date. I am feeling better today, but I just hope it's fully gone before we start filming on Sunday and Monday. Many would think that a long day of working on a movie would be hard, but it's even harder just laying in bed doing nothing. I SHOULD be better by tomorrow, depending what exactly is wrong with me. If it's a virus, I think it's almost over. If it's strep, I may be sick for a week or two. [But most of the time I get strep, I'm throwing up almost contently, and right now I only have a sore throat and light headache.] Well, I let you know if I feel better.

Saturday, April 4th, 2009:

Tomorrow and the next day I'm going to try to get as much filming done as possible for Hidden Killer. Tomorrow I will be filming with the new actor. [My dad.] On Monday Ammanda and I are going to film all the shots at "Jean's House" I hope all goes well, because if our filming pace doesn't speed up, We may not meet the deadline. I am feeling much better, but I still have a stuffy nose and sore throat, but I think I will be able to work on the movie. And as I said before, It's harder for me NOT to work on the movie then to work all day on it.

Sunday, April 5th, 2009:

We didn't get to film today. But I that's OK, the part we were going to film was very small anyway. I scheduled a new date, Next week, it finish that part. However, Tomorrow is still looking hopeful. As expected, Ammanda is putting up resistance, but now I have the boss on my side....my Mom. My sickness, What ever it is, still hasn't' really gone yet, but it's just a sore throat and stuffed nose, so I don't think it will ruin the shoot. [Unless I sound like I'm holding my nose when I say my lines, that would be a disaster!] As I type this, It's late at night. All but me and my Dad are sleeping. My bed is piled high with HK props, scripts, plans, and such. I am nervously munching pretzels as I wonder...."Will we be able to pull it off?" the film deadline is in about two months, but we barely have anything filmed. [Right now, pretty much everything uploaded on youtube is what we have filmed.] Well, I better clean off my bed and get to sleep....It's going to be a big day tomorrow. [Although by the time you read this, that day may be over. Funny how time works.]

Monday, April 6th, 2009:

Well, We filmed a bit of HK today. It seems like it went well, but there is no way to really know until I start to put it all together in the editor. Actually, I ignored the script for a few scenes and made it even better. The one part in the script was simple, a man in a ski masks shoots at Jean, and she ducks for cover. I skipped that, and made a longer, more suspenseful scene that will have you on the edge of your seat! I can't wait until the release of the movie! Some times I almost forget that I'm the one releasing it! The next big shoot date is this Thursday, then another next Monday. [But this Thursday is not confirmed with the main actor, so there is no guarantee.] I said it before, and I will say it again: Not doing anything is harder then a full day of filming.

Tuesday, April 14th, 2009:

Sorry I wasn't able to get back to you about the movie shoot on Thursday and Monday. Simply put: both dates went horrible. On Thursday, we all took a long walk to the lake, as planned. But to our horror, we found that there was a party going on at the lake. Turns out that the lake is not a lake at all, but a private pond. So the whole one part of the script has to be re-done because we can't shoot at the pond without special permission. Monday was even worse. I didn't get to film at all. This hidden Killer movie is much harder then I thought it was going to be, and I thought it was going to be very hard. As I said many times before, "It is harder NOT to film at all then to put in a full days work."

Saturday, April 18th, 2009:

Ok, This has nothing to do with Rockstudios or movie making, but something happened last night that I will never forget! It was about 1:30 in the morning. My Dad and I were just coming back from the church's youth group late-night event. As we sat waiting for the light to change green, I noticed a Fire truck just up ahead at another intersection. I watched it closely, because it was heading in the general direction of our house. But, instead of going straight, it turned into the stadium parking lot. Right behind the stadium was a park. It had animals, a playground, and a ball field. The animal section was on fire. I yelled to my dad about the fire, and being the stupid curious people we are, we waited for the green light, then floored it and raced over to the park. As we got closer, I noticed that the animal's cages themselves were not on fire, but a structure or pile of leaves next to it. That didn't change the fact that the fire could spread. We quickly got out of the car, and ran over as close as we could without getting in the way of the firemen, who were getting the hoses ready. I took a few pictures on my cell phone, just before the hoses came on. Soon, the fire was out. Then, we noticed a few police men walking over to us. We told them our story. "I really want to find the @#%&!\$ that did this" He said, as the police started to search the area. We started to walk back to our car, and noticed that there where a bunch of police men all around it. As we came closer, they started to walk away, thinking that the car was just left there overnight. We got in, and the second Dad started the car, a bunch of police flashlights were on us in a second. "Dad...I think they want to talk to you" I said, as he police made there way over slowly. I have heard stories. Stories of people reaching for something, and the police thinking it's a gun, so they shoot you. "Keep your hands where they can see them" Dad said, as a police man walked over to his driver side window. He opened the window. They asked questions about what we were doing. As Dad was talking to the police man, I heard a bang on my side door. It was another police man, and he wanted me to open my sliding door so he could see me. I opened it, and they continued to question Dad. While Dad was questioned, the police man asked me a few questions as well. "How old are you?" and "Are you two related?" Even these simple questions were hard to answer in such a situation. We must have looked suspicious. Two guys, one a teenager, at 1:30 in the morning, just after some prankster started a fire near the animals; and to make it worse: My dad said we were just coming back from church, which was true, but must have sounded strange. After running Dads license, he said. "Ok, you two are good to go." So we drove away. "Guess I'm really not sleeping tonight." I said.

Thursday, April 23rd, 2009:

You've probably noticed some ads around the site. I decided to put the ads up after I found out some interesting information. About 97% of all the money Rockstudios ever had, came straight out of my pocket. The remaining 3% came from small fund raisers, such as yard sales and small donations. I want to change that, and get something out of Rockstudios. I do not expect to get rich, but just to help pay some of the "Bills" In Rockstudios. So, please check out the ads if your interested in them. [But only if you are interested. Don't click just because you want to support Rockstudios, click because it looks interesting!] In other news, The Hidden Killer Movie is looking pretty good. About two and a half minutes of it is 100% complete, and most of the rest is ready for me to edit. I really want to come out with an exact release date, but I can't guarantee just yet when it will be done. For now, It's just early summer.

Saturday, May 16th, 2009:

Sorry I haven't posted in so long, but there really isn't very much going on, at least right now. I am going camping soon, and I want to film part of Hidden Killer there, and possibly make some test videos for fun. The unofficial Hidden Killer deadline is coming soon. [June 21st] I would really like to have the filming done by then. There are just a few more scenes, then I can jump on the editing. Hidden Killer is going to be our first "Real" movie, and I can't wait to see how it comes out! Well, That's pretty much all. I'll let you know if anything changes.

Monday, May 25th, 2009:

About 9 pages. That is what is left of the 21 pages of the Hidden Killer script. I just got back from camping, where I hoped to film a scene or two there, but almost the whole time I was sick. We didn't even get one scene done. I think that it will be OK though. We SHOULD have HK out sometime before July. We don't have an exact date yet, but the estimated date is between June 21st, and July 31st. The closer we get to finishing HK, the smaller the span between the two dates will be until we have only one day, and I can't wait for that day. If you haven't yet, be sure to download our toolbar from the download page. It will keep you updated.

Sunday, June 21st, 2009:

Well, Today was the unofficial deadline for Hidden Killer, and we blew it. We are almost done, but being almost done is not the same as being done. We should be done any day now, so I think it will be okay if we are a few days late. I am worried about what you all will think about the movie. Now that it's coming together, It looks much better, but also at the same time I see errors and mistakes that can't be fixed without a total remake for some scenes. It's nothing major enough to shut down Hidden Killer, but I am expecting to get lots of comments. After all, this is pretty much our first movie. [Everything before this was just a few kids running around with a camera. HK has a script, is much longer, and is more complex.] I expect HK to be about 20 minutes long, but it's still hard to tell. Well, that's pretty much all. I got lots of work to do tomorrow if I want to get done with this movie soon. See ya later!

Friday, June 26th, 2009:

I have three surprises for all you today. The first surprise you may have already noticed; The advertisements are gone! The second surprise you may have also noticed; Hidden Killer has been finished! Check out the count down to it's release at the [Hidden Killer page](#)! The third surprise, is one that I can't tell you until AFTER the release of Hidden Killer. You'll see why soon...

Saturday, June 27th, 2009:

It is such a relief to be done filming Hidden Killer. You have have noticed that I post a little more often, and having the stress of Hidden Killer leaving is probably the cause of that. I just got done updating the downloads page. Now when you click "Preview" next to a music link, it brings you to a website just like Youtube, but for sound. Now with all the files removed from our server, it frees up quite a bit of space. I wonder what I'll do with it all.... Oh well. I guess that's all for now.

Wednesday, July 22nd, 2009:

First of all, I would like to apologize for not posting in so long, and second of all, I would like to share part of a new idea I have for our next movie! I am in the early stages of the script, but [HERE](#) is a small sample of it. The movie idea is a little far fetched, but I think we can make it work. I really wanted to make a Hidden Killer part two, but I'm having some trouble with one of the actors. I'll keep trying to get HER to do it, but I don't think SHE will. [I won't mention HER name to you, SHE may not like that] That's pretty much all I have to say, but I would love to hear what you think of the script sample. Don't hesitate to send me an E-mail at Overall@Rockstudios.org.

Wednesday, July 29th, 2009:

Today I've made some big changes to the post page. not only is there a shiny new Twitter feed, but now all the latest posts are at the top of the page so you don't have to scroll all the way down. I am thinking about switching over 100% to Twitter, but Twitter is for short notifications, not long, detailed posts. Oh, and you all may be wondering about what movie is coming next, now that Hidden Killer is all done. To tell you the truth, we don't have any exact plans, but we are working on a short movie about Club Penguin, but if you don't play Club Penguin, then you probably won't like the movie. The other thing we are working on is a movie about someone who is trying to cure cancer, but his experiments go horribly wrong. [Still in the early script writing phrases though.] I am even thinking of making multiple episodes and release one each week. Well, that's pretty much all for now. Be sure to check back for future changes.

Saturday, September 19th, 2009:

I totally forgot to post in the last few weeks! Simply nothing has been going on. It seems that ever since we finished Hidden Killer, that Rockstudios has been dead! [Rockstudios isn't really dead, just sleeping.] I have a great idea for a movie, but an actor required to be in it simply won't do it! [Hidden Killer 2: Jean's revenge] I have an absolutely AMAZING idea for the movie, but as I said before, the actor for Jean simply doesn't want to do it! She is currently under a contract for Rockstudios, but the contract is out dated and states that she only has to finish a movie if she starts it...and we didn't start HK 2. I offered her \$20 a day, and she still says no. I don't know why. I though we had fun in part one. Oh well, I guess I better work on a new script...

Wednesday, October 28th, 2009:

It's official. We are going to make a Hidden Killer 2. I found out that the actor for Jean will do it, depending on her current mood. [And boy is she moody.] As for the Club Penguin movie, I'm sort of waiting for George. He is then one forming the main story and plot for it, and I edit it. There isn't much else to say...nothing has been going on really. I can't wait to start filming. I hate the whole script and preparation process. I just like to direct the action scenes, and that's all. Maybe I will team up with that other film maker I was talking about in other posts. He does the planning and scripts, and I direct the action scenes.

Monday, December 21st, 2009:

It seems like Rockstudios is just starting to awaken from hibernation. I've been working on some smaller details of Hidden Killer two, as well as getting actors, locations, props, etc ready. The hardest part is how cold it is outside. Only about an hour or two ago I was trying to film a test scene for HK2, but my hands and the camera were just too cold to finish. Once it starts to get warmer out, I'm sure things will pick up. The biggest problem is the actor for Jean. My last post, October 20th, said she will do a little for the movie, but now she is saying she won't do ANYTHING. It's really hard to work with such a Jackass, but it's not like anyone can replace her. Also, I plan to update the website more, so I apologize if you encounter any problems. I am thinking of updating the entire site design, as well as switching this post system over to something like Blogger. Well, that's pretty much all for now.
